**Rosa Rountree, Egis Projects, Inc. CEO,
Chosen to Serve on MaaS America Advisory Committee**

ORLANDO, Fla. (Aug. 15, 2019) – Egis Projects, Inc. CEO Rosa Rountree has been selected to serve on the [MaaS America](#) Advisory Committee (MAAC).

The MAAC is an assembly of seasoned mobility industry thought leaders who provide an incomparable wealth of skills and wisdom to MaaS America. MaaS America is a new, not-for-profit organization launched to champion integrated mobility services across all modes of transportation that more effectively address the needs of the contemporary traveler.

Rountree brings more than 20 years of financial, management and customer service experience to her position on the MAAC. During that time, she has supported more than 14 toll agencies, transit projects and credential processing for commercial trucking. Rountree possesses an in-depth tolling perspective, having worked in the industry for nearly 20 years.

Rountree, one of MaaS America’s first Advisors, said, “The MAAC brings a rare but powerful mix of real-world experience and industry influence to support MaaS America’s portfolio of efforts that are specifically tailored to help all sectors and modes support the growth and success of MaaS.”

“We are truly fortunate to have access to the MAAC’s experience and mentorship as we continue to define programs that guide and accelerate the growth of Mobility as a Service. Their knowledge and innovative thinking are transforming what began as a concept into a solid and positive force in the MaaS community,” said Tim McGuckin, a transportation industry veteran and MaaS America’s founder.

As CEO of Egis Projects since 2013, Rountree manages transportation business development initiatives, projects implementation and operations oversight in North America. Previously,

Rountree was CEO of Egis Projects Canada, where she managed the first All Electronic Toll Collection system in British Columbia, the Golden Ears Bridge, serving nearly one million registered and unregistered customers and achieving an average annual customer satisfaction of 97 percent.

Prior to that, Rountree served as Executive Director of the Georgia State Road and Tollway Authority, directing the agency's daily operations and advising state and local municipalities on transportation policy decisions. Earlier in her career, Rountree held the position of Operations Manager with the Orlando Orange County Expressway Authority and managed EPass, one of the first electronic toll collection systems in the United States.

Rountree recently served on the Executive Committee for the Transportation Research Board (TRB) and the Board of Directors for the International Bridge, Tunnel and Turnpike Association (IBTTA).

About Egis Projects, Inc., a major developer in infrastructure projects

As an integral part of Egis Group, Egis Projects, Inc. develops and operates projects for public and private infrastructure owners and investors. Through its worldwide presence, Egis has a unique know-how in managing complex transportation infrastructure projects and services to create value for communities around the world. It is recognized as a major player in the public-private partnership market, acting as a long-term developer and investor, a systems integrator, an expert in operating and maintaining infrastructure, and as a provider of related mobility services and energy. With more than 14,000 people, Egis Group is a 75-percent-owned subsidiary of Caisse des Dépôts, one of the world's safest banks, with the remaining 25 percent held by partner executives and employees. The Egis Group earned \$1.27 billion in 2018.
